On June 5, 2019, the City of Lebanon partnered with the Warren County Regional Planning Commission to update their Parks Master Plan. The last update to the Plan was in 2008 and many of the recommendations have been implemented. Since 2008, there have been four new parks which include: Miller Ecological Park, the Premier Health Atrium Medical Center Bike Park, Jared Park, and the Ida Juris Bennett Dog Park. The updated plan will provide master plans and recommendations for the newly established parks, as well as the current parks. The Regional Planning Commission is in the process of drafting the Master Plan before it is formally adopted by City Council.

If you have any questions regarding this plan, you can call the Regional Planning Commission at (513) 695-1223.
