

Salem Township Zoning Code Update

The Salem Township Board of Trustees has engaged the RPC Staff in a services contract agreement to review and prepare updates to the Salem Township Zoning Code and Map. The amendments will in part be to fulfill objectives identified in the Salem Township Comprehensive Plan, as well as being necessary to address changes in the ORC enabling law and in response to Court cases pertinent to zoning regulation. The RPC Staff is to assist the Salem Township in the update process and in preparing amendments for adoption. The project is anticipated to be started in March 2020 and take approximately 8 months to complete.
