

WARREN COUNTY
EMERGENCY MANAGEMENT TRAINING AND EXERCISE SURVEY

Name: _____ Dept. or Agency: _____

1 Does your department/agency have a formal training plan for 2022?
 Yes No

Comments: _____

2 What emergency management related trainings does your department/agency have scheduled for 2022?

Comments: _____

3 Does your department/agency have any gaps in education or training on any of FEMA's 32 Core Capabilities?
**See attachment for explanation on each core capability target*

- | | | | |

4 Please indicate which trainings your jurisdiction/agency would like to see offered in Warren County that would help you address gaps in the core capabilities:

Locally offered courses:

- EMA 101
- The Role of Local Officials in Disasters
- Brown Bag Educational Offerings (subject TBD)
- School evacuation and family reunification
- Other: (Please indicate subject) _____
- Other: (Please indicate subject) _____

**WARREN COUNTY
EMERGENCY MANAGEMENT TRAINING AND EXERCISE SURVEY**

State Offered Courses:

Are scheduled on a first-come, first served basis per region and are subject to availability of instructors

<input type="checkbox"/>	G-108 Community Mass Care and Emergency Assistance	<input type="checkbox"/>	G-400 (ICS) Advanced ICS for Command and General Staff - Complex Incidents
<input type="checkbox"/>	G-141 Instructional Presentation and Evaluation Skills	<input type="checkbox"/>	G-402 Incident Command System (ICS) Overview for Executives and Senior Officials
<input type="checkbox"/>	G-191 (ICS)/(EOC) Interface	<input type="checkbox"/>	G418 Mass Care / Emergency Assistance Planning and Operations Course
<input type="checkbox"/>	G-194.1 Local Floodplain Manager Roles and Responsibilities	<input type="checkbox"/>	G427 CERT Program Manager Course
<input type="checkbox"/>	G-194.2 NFIP Rules and Regulations in Depth	<input type="checkbox"/>	G428 CERT Instructor Train-The-Trainer
<input type="checkbox"/>	G-194.4 Preparing for Post-Disaster Responsibilities	<input type="checkbox"/>	G434.A Earthquake Safety for Schools
<input type="checkbox"/>	G-205 Recovery from Disaster: The Local Government Role	<input type="checkbox"/>	G-489 Management of Spontaneous Volunteers in Disasters
<input type="checkbox"/>	G-235 Emergency Planning Course	<input type="checkbox"/>	G-548 Continuity Program Manager
<input type="checkbox"/>	G-251 Workshop in Emergency Management Amateur Radio Resources	<input type="checkbox"/>	G-557 Rapid Assessment Planning
<input type="checkbox"/>	G-270.3 Expedient Flood Training	<input type="checkbox"/>	G-2300 Intermediate Emergency Operations Center Functions
<input type="checkbox"/>	G-271 Hazardous Weather and Flooding Preparedness	<input type="checkbox"/>	L/K - 105 Public Information Basics (Replaced G290/291)
<input type="checkbox"/>	G-272 Warning Coordination	<input type="checkbox"/>	L/K-146 Homeland Security Exercise and Evaluation Program Training Course (HSEEP)
<input type="checkbox"/>	G-288 Local Volunteer and Donations Management	<input type="checkbox"/>	OH-101 Developing and Maintaining Emergency Operations Plans
<input type="checkbox"/>	G-289 Public Information Officer (PIO) Awareness Course	<input type="checkbox"/>	OH-139 Exercise Design Course
<input type="checkbox"/>	G-300 (ICS) for Explanding Incidents	<input type="checkbox"/>	OH -197 Planning for Access and Funtional Needs in Emergencies
<input type="checkbox"/>	G-318 Local Mitigation Planning Workshop	<input type="checkbox"/>	OH-202 Debris Management Workshop
<input type="checkbox"/>	G-358 Evacuation and Re-Entry Planning	<input type="checkbox"/>	OH 230 Introduction to Emergency Management
<input type="checkbox"/>	G-361 Flood Fight Operations	<input type="checkbox"/>	OH-278 Benefit Cost Analysis Workshop
<input type="checkbox"/>	G-365 Partnerships for Creating and Maintaining Spotter Groups	<input type="checkbox"/>	OH-605 Individual Assistance (IA) Damage Assessment Workshop
<input type="checkbox"/>	G-367 Emergency Planning for Campus Executive	<input type="checkbox"/>	OH-606 Recovery from Disaster Workshop
<input type="checkbox"/>	G-386 Mass Fatalities Incident course	<input type="checkbox"/>	OH-607 Public Assistance Cost Documentation/Damage Assessment Course
<input type="checkbox"/>	G-393 Mitigation for Emergency Managers	<input type="checkbox"/>	OH726 Commodity Points of Distribution

Other Courses offered through additional agencies

Please indicate: _____

Please indicate: _____

Please indicate: _____

Please indicate: _____

5 Does your department/agency have any planned exercises identified that it will be participating in during 2022?

Yes No

Comments:

Indicate type of exercise(s) already planned for 2022:

Seminar Workshop

Tabletop Game

Drill Functional

Full-Scale

6 Would your department/agency be interested in participating in any of the following exercises with Warren County EMA?

Seminar Workshop

Tabletop Game

Drill LEPC Functional

Full-Scale EOC Exercise

WARREN COUNTY
EMERGENCY MANAGEMENT TRAINING AND EXERCISE SURVEY

7 What kinds of exercises do you feel would help your department/agency address any gaps in the 32 core capabilities? (be specific)

Type of Exercise _____

Type of Exercise _____

Type of Exercise _____

Type of Exercise _____

8 Is your department/agency sheduled to update any emergency management or hazard mitigation related plans in 2022?

- Comprehensive Master Plan
- Continuity of Operations Plan
- Captial Improvement Plan
- Local Emergency Operations Plan
- Economic Development Plan
- Transportation Plan
- Stormwater Management Plan
- Special Event Emergency Plans
- Other Plans: _____

9 Are there any other plans you feel would help your department/agency address any gaps in the 32 core capabilities?

Type of Plan _____

Type of Plan _____

Type of Plan _____

10 What additional emergency management trainings, exercises, or plans would you like to see offered in Warren County that would help improve mitigation, preparedness, response, and recovery efforts for emergencies and disasters? (Be specific)

Comments:

11 List any other ways you believe Warren County EMA could help your department/agency address gaps in core capabiltiies

CORE CAPABILITY TARGET EXPLANATION SHEET

32 Core Capabilities	Description	Target Examples
Planning	Conduct a systematic process engaging the whole community as appropriate in the development of executable strategic, operational, and/or tactical-level approaches to meet defined objectives.	<ol style="list-style-type: none"> 1. Implement, exercise, and maintain plans to ensure continuity of operations. 2. Develop approved hazard mitigation plans that address relevant threats/hazards in accordance with the results of their risk assessment within all local, state, tribal, territorial, and Federal partners. 3. Develop operational plans that adequately identify critical objectives based on the planning requirement, provide a complete and integrated picture of the sequence and scope of the tasks to achieve the objectives, and are implementable within the timeframe contemplated in the plan using available resources. 4. Convene the core of an inclusive planning team (identified pre-disaster), which will oversee disaster recovery planning. 5. Complete an initial recovery plan that provides an overall strategy and timeline, addresses all core capabilities, and integrates socioeconomic, demographic, accessibility, technology, and risk assessment considerations (including projected climate change impacts), which will be implemented in accordance with the timeline contained in the plan.
Public Information and Warning	Deliver coordinated, prompt, reliable, and actionable information to the whole community through the use of clear, consistent, accessible, and culturally and linguistically appropriate methods to effectively relay information regarding any threat or hazard, as well as the actions being taken and the assistance being made available, as appropriate.	<ol style="list-style-type: none"> 1. Share prompt and actionable messages, to include National Terrorism Advisory System alerts, with the public and other stakeholders, as appropriate, to aid in the prevention of imminent or follow-on terrorist attacks, consistent with the timelines specified by existing processes and protocols. 2. Provide public awareness information to inform the general public on how to identify and provide terrorism-related information to the appropriate law enforcement authorities, thereby enabling the public to act as a force multiplier in the prevention of imminent or follow-on acts of terrorism. 3. Use effective and accessible indication and warning systems to communicate significant hazards to involved operators, security officials, and the public (including alerts, detection capabilities, and other necessary and appropriate assets). 4. Communicate appropriate information, in an accessible manner, on the risks faced within a community after the conduct of a risk assessment. 5. Inform all affected segments of society of critical lifesaving and life-sustaining information by all means necessary, including accessible tools, to expedite the delivery of emergency services and aid the public to take protective actions. 6. Deliver credible and actionable messages to inform ongoing emergency services and the public about protective measures and other life-sustaining actions, and facilitate the transition to recovery. 7. Reach all populations within the community with effective actionable recovery-related public information messaging and communications that are accessible to people with disabilities and people with limited English Proficiency, protect the health and safety of the affected population, help manage expectations, and ensure stakeholders have a clear understanding of available assistance and their roles and responsibilities. 8. Support affected populations and stakeholders with a system that provides appropriate, current information about any continued assistance, steady state resources for long-term impacts, and monitoring programs in an effective and accessible manner.
Operational Coordination	Establish and maintain a unified and coordinated operational structure and process that appropriately integrates all critical stakeholders and supports the execution of Core Capabilities.	<ol style="list-style-type: none"> 1. Execute operations with functional and integrated communications among appropriate entities to prevent initial or follow-on terrorist attacks within the United States in accordance with established protocols. 2. Establish and maintain partnership structures among Protection elements to support networking, planning, and coordination 3. Establish protocols to integrate mitigation data elements in support of operations with local, state, tribal, territorial, and insular area partners and in coordination with Federal agencies. 4. Mobilize all critical resources and establish command, control, and coordination structures within the affected community, in other coordinating bodies in surrounding communities, and across the Nation, and maintain as needed throughout the duration of an incident. 5. Enhance and maintain command, control, and coordination structures consistent with the National Incident Management System to meet basic human needs, stabilize the incident, and transition to recovery. 6. Establish tiered, integrated leadership and inclusive coordinating organizations that operate with a unity of effort and are supported by sufficient assessment and analysis to provide defined structure and decision-making processes for recovery activities. 7. Define the path and timeline for recovery leadership to achieve the jurisdiction's objectives that effectively coordinates and uses appropriate local, state, tribal, territorial, insular area, and Federal assistance, as well as nongovernmental and private sector resources. This plan is to be implemented within the established timeline.
Intelligence and Information Sharing	Provide timely, accurate, and actionable information resulting from the planning, direction, collection, exploitation, processing, analysis, production, dissemination, evaluation, and feedback of available information concerning physical and cyber threats to the United States, its people, property, or interests; the development, proliferation, or use of WMDs; or any other matter bearing on U.S. national or homeland security by local, state, tribal, territorial, Federal, and other stakeholders.	<ol style="list-style-type: none"> 1. Anticipate and identify emerging and/or imminent threats through the intelligence cycle. 2. Share relevant, timely, and actionable information and analysis with local, state, tribal, territorial, Federal, private sector, and international partners and develop and disseminate appropriate classified/unclassified products. 3. Ensure local, state, tribal, territorial, Federal, and private sector partners possess or have access to a mechanism to submit terrorism-related information and/or suspicious activity reports to law enforcement.
Interdiction and Disruption	Delay, divert, intercept, halt, apprehend, or secure threats and/or hazards.	<ol style="list-style-type: none"> 1. Maximize our ability to interdict specific conveyances, cargo, and persons associated with an imminent terrorist threat or act in the land, air, and maritime domains to prevent entry into the United States or to prevent an incident from occurring in the Nation. 2. Conduct operations to render safe and dispose of CBRNE hazards in multiple locations and in all environments, consistent with established protocols. 3. Prevent terrorism financial/material support from reaching its target, consistent with established protocols. 4. Prevent terrorist acquisition of and the transfer of CBRNE materials, precursors, and related technology, consistent with established protocols. 5. Conduct tactical counterterrorism operations in multiple locations and in all environments. 6. Deter, detect, interdict, and protect against domestic and transnational criminal and terrorist activities that threaten the security of the homeland across key operational activities and critical infrastructure sectors. 7. Intercept the malicious movement and acquisition/transfer of chemical, biological, radiological, nuclear, and explosive (CBRNE) materials and related technologies.

CORE CAPABILITY TARGET EXPLANATION SHEET

32 Core Capabilities	Description	Target Examples
Screening, Search and Detection	Identify, discover, or locate threats and/or hazards through active and passive surveillance and search procedures. This may include the use of systematic examinations and assessments, bio surveillance, sensor technologies, or physical investigation and intelligence.	<ol style="list-style-type: none"> 1.Maximize the screening of targeted cargo, conveyances, mail, baggage, and people associated with an imminent terrorist threat or act using technical, non-technical, intrusive, or non-intrusive means. 2.Initiate operations immediately to locate persons and networks associated with an imminent terrorist threat or act. 3. Conduct CBRNE search/detection operations in multiple locations and in all environments, consistent with established protocols. 4.Screen cargo, conveyances, mail, baggage, and people using information-based and physical screening technology and processes. 5.Detect WMD, traditional, and emerging threats and hazards of concern using: <ol style="list-style-type: none"> a.Laboratory diagnostic capability and the capacity for food, agricultural (plant/animal), environmental, medical products, and clinical samples b.Bio surveillance systems c.CBRNE detection systems d.Trained healthcare, emergency medical, veterinary, and environmental laboratory professionals
Access Control and Identity Verification	Apply and support necessary physical, technological, and cyber measures to control admittance to critical locations and systems.	<ol style="list-style-type: none"> 1. Implement and maintain protocols to verify identity and authorize, grant, or deny physical and cyber access to specific locations, information, and networks.
Cybersecurity	Protect (and, if needed, restore) electronic communications systems, information, and services from damage, unauthorized use, and exploitation.	<ol style="list-style-type: none"> 1. Implement risk-informed guidelines, regulations, and standards to ensure the security, reliability, integrity, and availability of critical information, records, and communications systems and services through collaborative cybersecurity initiatives and efforts. 2. Implement and maintain procedures to detect malicious activity and to conduct technical and investigative-based countermeasures, mitigations, and operations against malicious actors to counter existing and emerging cyber-based threats, consistent with established protocols.
Physical Protective Measures	Implement and maintain risk-informed countermeasures and policies protecting people, borders, structures, materials, products, and systems associated with key operational activities and critical infrastructure sectors.	<ol style="list-style-type: none"> 1. Identify, assess, and mitigate vulnerabilities to incidents through the deployment of physical protective measures. 2. Deploy protective measures commensurate with the risk of an incident and balanced with the complementary aims of enabling commerce and maintaining the civil rights of citizens.
Risk Management for Protective Programs and Activities	Identify, assess, and prioritize risks to inform Protection activities, countermeasures, and investments.	<ol style="list-style-type: none"> 1. Ensure critical infrastructure sectors and Protection elements 2. Ensure operational activities and critical infrastructure have and maintain risk assessment processes to identify and sectors have and maintain appropriate threat, vulnerability, prioritize assets, systems, networks, and functions. and consequence tools to identify and assess threats, vulnerabilities, and consequences.
Supply Chain Integrity	What emergency management related trainings does your department/agency have scheduled for 2022?	<ol style="list-style-type: none"> 1. Secure and make resilient key nodes, methods of transport between nodes, and materials in transit.
Risk and Disaster Resilience Assessment	Assess risk and disaster resilience so that decision makers, responders, and community members can take informed action to reduce their entity's risk and increase its resilience.	<ol style="list-style-type: none"> 1. Ensure that local, state, tribal, territorial, and insular area governments and the top 100 Metropolitan Statistical Areas complete a risk assessment that defines localized vulnerabilities and consequences associated with potential natural, technological, and human-caused threats and hazards to their natural, human, physical, cyber, and socioeconomic interests.
Fatality Management Services	Provide fatality management services, including decedent remains recovery and victim identification, and work with local, state, tribal, territorial, insular area, and Federal authorities to provide mortuary processes, temporary storage or permanent interment solutions, sharing information with mass care services for the purpose of reunifying family members and caregivers with missing persons/remains, and providing counseling to the bereaved.	<ol style="list-style-type: none"> 1. Establish and maintain operations to recover a significant number of fatalities over a geographically dispersed area. 2. Mitigate hazards from remains, facilitate care to survivors, and return remains for final disposition.
Public Health, Healthcare, and Emergency Medical Services	Provide lifesaving medical treatment via Emergency Medical Services and related operations, and avoid additional disease and injury by providing targeted public health, medical, and behavioral health support and products to all affected populations.	<ol style="list-style-type: none"> 1. Deliver medical countermeasures to exposed populations. 2. Complete triage and initial stabilization of casualties, and begin definitive care for those likely to survive their injuries and illnesses. 3. Return medical surge resources to pre-incident levels, complete health assessments, and identify recovery processes.
Economic Recovery	Return economic and business activities (including food and agriculture) to a healthy state, and develop new business and employment opportunities that result in an economically viable community.	<ol style="list-style-type: none"> 1. Conduct a preliminary assessment of economic issues and identify potential inhibitors to fostering stabilization of the affected communities. 2. Return affected area's economy within the specified timeframe in the recovery plan. 3. Ensure the community recovery and mitigation plan(s) incorporates economic revitalization and removes governmental inhibitors to post-disaster economic sustainability, while maintaining the civil rights of citizens.
Health and Social Services	Restore and improve health and social services capabilities and networks to promote the resilience, independence, health (including behavioral health), and well-being of the whole community.	<ol style="list-style-type: none"> 1. Identify affected populations, groups, and key partners in short-term, intermediate, and long-term recovery. 2. Complete an assessment of community health and social service needs; prioritize these needs, including accessibility requirements, based on the whole community's input and participation in the recovery planning process; and develop a comprehensive recovery timeline. 3. Restore health care (including behavioral health), public health, and social services functions. 4. Restore and improve the resilience and sustainability of the health care system and social service capabilities and networks to promote the independence and well-being of community members in accordance with the specified recovery timeline.
Forensics and Attribution	Conduct forensic analysis and attribute terrorist acts (including the means and methods of terrorism) to their source, to include forensic analysis as well as attribution for an attack and for the preparation for an attack, in an effort to prevent initial or follow-on acts and/or swiftly develop counter options.	<ol style="list-style-type: none"> 1. Prioritize physical evidence collection and analysis to assist in preventing initial or follow-on terrorist acts. 2. Prioritize chemical, biological, radiological, nuclear, & explosive (CBRNE) material (bulk and trace) collection & analysis to assist in preventing initial or follow-on terrorist acts. 3. Prioritize biometric collection and analysis to assist in preventing initial or follow-on terrorist acts. 4. Prioritize digital media, network exploitation, and cyber technical analysis to assist in preventing initial or follow-on terrorist acts.
Community Resilience	Enable the recognition, understanding, communication of, and planning for risk, and empower individuals and communities to make informed risk management decisions necessary to adapt to, withstand, and quickly recover from future incidents.	<ol style="list-style-type: none"> 1. Maximize the coverage of the U.S. population that has a localized, risk-informed mitigation plan developed through partnerships across the entire community. 2. Empower individuals and communities to make informed decisions to facilitate actions necessary to adapt to, withstand, and quickly recover from future incidents.
Long-Term Vulnerability Reduction	Build and sustain resilient systems, communities, and critical infrastructure and key resources lifelines so as to reduce their vulnerability to natural, technological, and human-caused threats and hazards by lessening the likelihood, severity, and duration of the adverse consequences.	<ol style="list-style-type: none"> 1. Achieve a measurable decrease in the long-term vulnerability of the Nation against current baselines amid a growing population base, changing climate conditions, increasing reliance upon information technology, and expanding infrastructure base.

CORE CAPABILITY TARGET EXPLANATION SHEET

32 Core Capabilities	Description	Target Examples
Threats and Hazards Identification	Identify the threats and hazards that occur in the geographic area; determine the frequency and magnitude; and incorporate this into analysis and planning processes so as to clearly understand the needs of a community or entity.	1. Identify the threats and hazards within and across local, state, tribal, territorial, and insular area governments and the top 100 Metropolitan Statistical Areas, in collaboration with the whole community, against a national standard based on sound science.
Critical transportation	Provide transportation (including infrastructure access and accessible transportation services) for response priority objectives, including the evacuation of people and animals and the delivery of vital response personnel, equipment, and services into the affected areas.	1. Establish physical access through appropriate transportation corridors and deliver required resources to save lives and to meet the needs of disaster survivors. 2. Ensure basic human needs are met, stabilize the incident, transition into recovery for an affected area, and restore basic services and community functionality. 3. Clear debris from any route type (i.e., road, rail, airfield, port facility, waterway) to facilitate response operations).
Environmental Response / Health and Safety	Conduct appropriate measures to ensure the protection of the health and safety of the public and workers, as well as the environment, from all hazards in support of responder operations and the affected communities.	1. Identify, assess, and mitigate worker health and safety hazards, and disseminate health and safety guidance and resources to response and recovery workers. 2. Minimize public exposure to environmental hazards through assessment of the hazards and implementation of public protective actions. 3. Detect, assess, stabilize, and clean up releases of oil and hazardous materials into the environment, including buildings/structures, and properly manage waste. 4. Identify, evaluate, and implement measures to prevent and minimize impacts to the environment, natural and cultural resources, and historic properties from all-hazard emergencies and response operations.
Fire Management and Suppression	Provide structural, wildland, and specialized firefighting capabilities to manage and suppress fires of all types, kinds, and complexities while protecting the lives, property, and environment in the affected area.	1. Provide traditional first response or initial attack firefighting services. 2. Conduct expanded or extended attack firefighting and support operations through coordinated response of fire management and specialized fire suppression resources. 3. Ensure the coordinated deployment of appropriate local, regional, national, and international fire management and fire suppression resources to reinforce firefighting efforts and maintain an appropriate level of protection for subsequent fires.
Logistics and Supply Chain Management	Deliver essential commodities, equipment, and services in support of impacted communities and survivors, to include emergency power and fuel support, as well as the coordination of access to community staples. Synchronize logistics capabilities and enable the restoration of impacted supply chains.	1. Mobilize and deliver governmental, nongovernmental, and private sector resources to save lives, sustain lives, meet basic human needs, stabilize the incident, and transition to recovery, to include moving and delivering resources and services to meet the needs of disaster survivors. 2. Enhance public and private resource and services support for an affected area.
Mass Care Services	Provide life-sustaining and human services to the affected population, to include hydration, feeding, sheltering, temporary housing, evacuee support, reunification, and distribution of emergency supplies.	1. Move and deliver resources and capabilities to meet the needs of disaster survivors, including individuals with access and functional needs. 2. Establish, staff, and equip emergency shelters and other temporary housing options (including accessible housing) for the affected population. 3. Move from congregate care to non-congregate care alternatives and provide relocation assistance or interim housing solutions for families unable to return to their pre-disaster homes.
Mass Search and Rescue	Deliver traditional/ atypical search and rescue capabilities, including personnel, services, animals, and assets to survivors in need, with the goal of saving the greatest number of endangered lives in the shortest time possible.	1. Conduct search and rescue operations to locate and rescue persons in distress. 2. Initiate community-based search and rescue support operations across a wide, geographically dispersed area. 3. Ensure the synchronized deployment of local, regional, national, and international teams to reinforce ongoing search and rescue efforts and transition to recovery.
On-Scene Security, Protection, and Law Enforcement	Ensure a safe and secure environment through law enforcement and related security and protection operations for people and communities located within affected areas and also for response personnel engaged in lifesaving and life-sustaining operations.	1. Establish a safe and secure environment in an affected area. 2. Provide and maintain on-scene security and meet the protection needs of the affected population over a geographically dispersed area while eliminating or mitigating the risk of further damage to persons, property, and the environment.
Operational Communications	Ensure the capacity for timely communications in support of security, situational awareness, and operations, by any and all means available, among and between affected communities in the impact area and all response forces.	1. Ensure the capacity to communicate with both the emergency response community and the affected populations and establish interoperable voice and data communications between Federal, tribal, state, and local first responders. 2. Re-Establish sufficient communications infrastructure within the affected areas to support ongoing life-sustaining activities, provide basic human needs, & transition to recovery. 3. Re-establish critical information networks, including cybersecurity information sharing networks, to inform situational awareness, enable incident response, and support the resilience of key systems.
Situational Assessment	Provide all decision makers with decision-relevant information regarding the nature and extent of the hazard, any cascading effects, and the status of the response.	1. Deliver information sufficient to inform decision-making regarding immediate lifesaving and life-sustaining activities, and engage governmental, private, and civic sector resources within and outside of the affected area to meet basic human needs and stabilize the incident. 2. Deliver enhanced information to reinforce ongoing lifesaving and life-sustaining activities, and engage governmental, private, and civic sector resources within and outside of the affected area to meet basic human needs and stabilize the incident, and transition to recovery.
Infrastructure Systems	Stabilize critical infrastructure functions, minimize health and safety threats, and efficiently restore and revitalize systems and services to support a viable, resilient community.	1. Decrease and stabilize immediate infrastructure threats to the affected population, to include survivors in the heavily damaged zone, nearby communities that may be affected by cascading effects, and mass care support facilities and evacuation processing centers with a focus on life- sustainment and congregate care services. 2. Re-establish critical infrastructure within the affected areas to support ongoing emergency response operations, life sustainment, community functionality, and a transition to recovery. 3. Provide for the clearance, removal, and disposal of debris. 4. Formalize partnerships with governmental and private sector cyber incident or emergency response teams to accept, triage, and collaboratively respond to cascading impacts in an efficient manner. 5. Restore and sustain essential services (public and private) to maintain community functionality. 6. Develop a plan with a specified timeline for redeveloping community infrastructures to contribute to resiliency, accessibility, and sustainability. 7. Provide systems that meet the community needs while minimizing service disruption during restoration within the specified timeline in the recovery plan.
Housing	Implement housing solutions that effectively support the needs of the whole community and contribute to its sustainability and resilience.	1. Assess preliminary housing impacts and needs, identify currently available options for temporary housing, and plan for permanent housing. 2. Ensure community housing recovery plans continue to address interim housing needs, assess options for permanent housing, and define a timeline for achieving a resilient, accessible, and sustainable housing market. 3. Establish a resilient and sustainable housing market that meets the needs of the community, including the need for accessible housing within the specified timeframe in the recovery plan.
Natural and Cultural Resources	Protect natural and cultural resources and historic properties through appropriate planning, mitigation, response, and recovery actions to preserve, conserve, rehabilitate, and restore them consistent with post-disaster community priorities and best practices and in compliance with applicable environmental and historic preservation laws and Executive orders.	1. Implement measures to protect and stabilize records and culturally significant documents, objects, and structures. 2. Mitigate the impacts to and stabilize the natural and cultural resources, and conduct a preliminary assessment of the impacts that identifies protections that need to be in place during stabilization through recovery. 3. Complete an assessment of affected natural and cultural resources, and develop a timeline for addressing these impacts in a sustainable and resilient manner. 4. Preserve natural and cultural resources as part of an overall community recovery that is achieved through the coordinated efforts of natural and cultural resource experts and the recovery team in accordance with the specified timeline in the recovery plan.
